- Academic Updates

Principal Rodenbaugh and Principal Friedermann presented the schools' academic updates to the Board. Principal Rodenbaugh began by reviewing the previous year's initiatives and their implementation. He then went on to review FY24 Galileo and AASA scores and their comparisons to previous scores as well as State scores. Principal Rodenbaugh explained the timing of teaching cycles compared to the AASA exams. Director Tomasson questioned how much of the score decline is related to student exits or change in students. Principal Rodenbaugh reviewed teacher turnover and student motivation issues. Director R. Miller questioned the 4 point improvement threshold. He indicated that with only a 4 point improvement every year, in some areas it could take years to reach the State average.

Director Tomasson questioned whether Galileo is the best internal test prepping program for the schools? Principal Friedermann said that Galileo is a standards based internal review program but they would review other programs for consideration and in the meantime we would work more with Galileo to help students with test taking.

- Enrollment

The Board was provided with the 7/9/24 enrollment numbers. Mesa enrollment is currently at 523 with an additional 15 students in process of completing enrollment which is a 7.5% increase from the end of last year. Mesa is still processing enrollments for the FY25 school year.

Director Miller provided the Board with the S & P 11/1/23 Charter School Brief: Arizona. She then provided them with Comparative Data on enrollment and scores from 2019-2023. She pointed out the decline in both scores and enrollment throughout that period. After discussion of the scores and enrollment she then provided the Board with job descriptions of the Principals and the teachers. The Board reviewed the descriptions and focused on areas related directly to building enrollment, academic achievement, parent communication and teacher expectations. An Action Plan to generate academic gains, staff/parent communications, building & maintaining enrollment, communicate expectations of performance by teachers and knowing your competition. Discussions took place regarding the Action Plan and continued to review tracking and accountability. The Board reviewed the tracking systems that are currently in place and discussed changes that could be made.
